

Discover powerfully simple digital PCR

Join us for a special digital PCR Lunch and Learn

This seminar will cover the basics of the QuantStudio Absolute Q Digital PCR System with Digital PCR Technical Specialist, Juliana Ramos.

At this seminar, we will walk through the following:

- Basics of digital PCR and the QuantStudio Absolute Q Digital PCR System
- How digital PCR compares to real-time PCR
- The sample prep workflow using the MAP16 plate
- Digital PCR main applications
- Software overview and data analysis

If you are interested in training on the Absolute Q or have any other questions, please contact your local representative:

Juliana Ramos
